Nr 1179

### Läkemedelsverkets beslut om läkemedelsförteckning

Utfärdat i Helsingfors den 13 december 2006

Läkemedelsverket har med stöd av 83 § i läkemedelslagen av den 10 april 1987 (395/87) beslutat fastställa följande läkemedelsförteckning:

#### 1 §

Läkemedel är de ämnen som har uppräknats i bilaga 1 till detta beslut.

Som läkemedel kan även betraktas:

1) droger som har uppräknats i bilaga 2 till detta beslut

2) övriga ämnen och droger som i medicinskt hänseende är jämförbara med ämnena i bilaga 1 och drogerna i bilaga 2 och som används i enlighet med 3 § i läkemedelslagen; och

3) vissa från sedvanliga läkemedel till sin form, sin sammansättning, sitt tillverknings sätt eller sin verkningsmekanism avvikande preparat eller ämnen, vilka i enlighet med vad som stadgas i 3 och 5 § i läkemedelslagen används som läkemedel. Sådana är bland

annat radioaktiva läkemedelsberedningar, allergenpreparat, vaccin samt medicinska gaser.

#### 2 §

Som läkemedel kan även klassificeras vitamin- eller mineralämnespreparat, där den i dygnsdosen ingående mängden vitamin eller mineralämne överstiger den i bilaga 3 till detta beslut nämnda mängden, samt vitamin- eller mineralämnespreparat som är avsedda för barn.

#### 3 §

Detta beslut träder i kraft den 1 januari 2007.

Samtidigt upphävs Läkemedelsverkets beslut av den 2 december 2003 om läkemedelsförteckning (1024/2003).

Helsingfors den 13 december 2006

Överdirektör, professor *Hannes Wahlroos*

Överprovisor *Tiina Kostiainen*
